For the month of November

Hope Ranch Animal Sanctuary was contacted by people in the community of Anza and Aguanga, to help 26 dogs and 61 puppies in October That makes the total so far for this year 303 dogs and 827 puppies. Total dogs is 1,130

It truly breaks our heart that we could not help them all.

The good news is we have fixed 67 pets in November. That is a total of 498 spay/neuters this year.

Our average cost for spay/neuter is \$225.00 each.
So far we have spent \$112,050 this year

We are so thankful for our generous donors who helped make this happen.

Help us fight this battle and donate for Spay and Neuter.
We are staying optimistic that we will fix the over population of dogs in our community
By providing free spay and neuter for the needy.

Ask us about sponsoring a spay and neuter day.

www.hoperanchanimalsanctuary.org

The Holiday season is here. Check out our wish list.

We are always in need of dog food.

Hope Ranch has had 22 adoptions in the month of November.

We still have many dogs and puppies that are looking for their forever homes.

If you are not looking to adopt at this time, please consider fostering.

Foster families save lives

A special thank you to our generous donors:

Leslie L. Alexander Foundation

Lucky Chi Foundation

Steven Pratt M.D and Gunilla Pratt

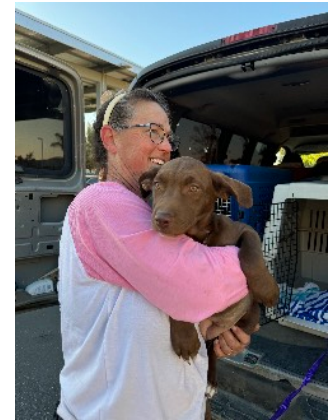

Become a Foster. We Need Fosters

We will cover all costs including food.

Fill out an application and we will contact you.

Last month, Hope Ranch successfully sponsored a spay-neuter clinic at the Animal Control facility in San Jacinto. We provided funding for 28 pets. Kathy and Gunilla generously volunteered their time to transport several community dogs for those without transportation options. We were thrilled with how smoothly the day went, and we would love to organize another clinic in the future. Many individuals struggle with transportation issues, whether due to a lack of a vehicle or financial constraints, and some are disabled as well. If you or your workplace would be interested in sponsoring a bus for the next event, we would be incredibly grateful. Thank you for your support!

Stop on by Kahoots Feed & Pet in Temecula, CA to view and donate towards the wishlists for adoptable dogs & cats for both Hope Ranch and our friends Hueys Rescue!

We want to give a HUGE thank you to the Temecula Kahoots team for setting this beautiful tree up and we also want to give a HUGE thank you to our volunteers Tina & Madilyn for making the beautiful wishlist cards for our pets!

Dog abandonment

Last month, we explored the topic of separation anxiety in dogs. This time, we will focus on the connection between separation anxiety and abandoned dogs.

When a dog is abandoned on the street, it often experiences immediate distress and confusion as it finds itself in an unfamiliar environment. Many of these dogs will stay in the same spot, hoping their owners will return, only to become increasingly bewildered when they realize that this is not going to happen.

Once on the streets, these dogs face the challenge of surviving on their own, often struggling with hunger, thirst, injuries, and diseases due to a lack of knowledge about how to cope in such conditions. In animal shelters, dogs typically wait for their owners to come back, sometimes for several days. Gradually, they begin to understand that their owners are not returning. Research indicates that dogs can sense when they are nearing euthanasia, adding to their stress and anxiety during this vulnerable time.

Dogs are inherently social creatures that form deep bonds with their owners, which makes the experience of abandonment especially traumatic. Even when left at boarding facilities, dogs can experience varying levels of stress and anxiety. However, the key difference is that boarding facilities often provide care, attention, and love from staff members, helping to alleviate some of the anxiety. If you need to leave your dog at a boarding facility, it's essential to choose a reputable place that will ensure your pet feels safe and cared for while you are away.
